Quality of separate modules

Module	Quality	Comments
Work	• High	The quality of this section can be estimated as High. Only 8 defects were found here. The issue (QATC-920684) concerns gallery image sizes do not match specified dimensions. Another defect (QATC-920689) is that the next button is navigating to wrong direction for just a single page. These do not significantly affect user experience or functionality.
Home	• Medium	The quality of module is estimated as Medium. In this section 11 defects were found. The most important problems are the following: In footer section, the last two digits of the mobile number is not correct as per documentation (QATC-920530). Furthermore, the search option is not working and doesn't provide any output (QATC-920596). The list of the issues actual for this module is here.
Session	• Low	In this section 13 defects were discovered during the testing, 4 of them have priority major. The most important defects are that for booking the Mini Studio and Standard session, is wrongly calculating (QATC-921342) and in the Booking information, the form has character limitation, checked by default and saving the user information is disable, also the payment button doesn't redirect to the payment page (QATC-921359). Follow the link to view all defects found in this module.
Connect	• Low	The Connect module has the lowest quality rating among these. The overall number of defects in this modul is 23, some of these are priority major and critical and affect the quality of the module vastly. For example, clicking the Contact Menu causes the Sessions tab to be disappeared and without reloading the page that can not restore (QATC-920610), customers profiles are missing as per documentation and some profiles are wrongly redirect to another profile (QATC-920944).
